### Facts about Kennedy's Disease

- Rare genetic defect carried by males & females and passed to their babies
- Over time, motor neurons die and muscles waste away, eventually resulting in severe physical disabilities
- Due to rarity of this disease, it is below the radar for medical research with little awareness and funding

Every dollar raised to fund research brings us one day closer to finding a cure for KD.

As we gratefully recall our past fundraising successes, we can't help looking to the future - to a time when that one dollar is raised and used to find a cure.

As we wonder when that day will come, we ask ourselves:

### Why Not Today?

With your help, we can continue to donate to the research for a cure and make TODAY that day!
